Overview of card materials

IDENTA

IDENTA AUSWEISSYSTEME GMBH

PVC Card so-called
IDENTACard

- ✓ rigid PVC
- ✓ resistant
- ✓ good optical quality
- ✓ heat resistance up to 65°C

PC Card
Polycarbonate card

- ✓ largest possible temperature resistance (up to 100°C)
- ✓ heat & cold resistant
- ✓ increased service life

PET-G Card
Polyethylene terephthalate with glycol

- ✓ environmentally friendly
- ✓ 100 % recyclable
- ✓ heat resistance up to 65°C
- ✓ good optical quality

Premium Card

- ✓ PVC-ABS composite material
- ✓ greater dimensional stability
- ✓ higher breaking strength
- ✓ increased service life
- ✓ brilliant, colourfast print
- ✓ heat resistance up to 70°C

Ultra Card

- ✓ PVC-PC composite material
- ✓ greater dimensional stability
- ✓ higher breaking strength
- ✓ increased service life
- ✓ brilliant, colourfast print
- ✓ heat resistance up to 85°C
