

RFID WRISTBANDS

Contactless transponder wristbands

IDENTA

IDENTA AUSWEISSYSTEME GMBH

RFID wristbands have the same functionality as a transponder card. It is only a different design. These so-called transponder wristbands can be worn comfortably on the wrist like a wristwatch. They are suitable for applications of time recording, access control, payment and user identification at fitness clubs, swimming pools, modern companies, schools, senior residences, nursing homes, amusement parks and many more.

RFID TRANSPONDER BRACELET LOXX W (WITH NYLON BRACELET)

- robust, versatile, suitable for indoor and outdoor use
